SOCIAL AUDIT TO FIGHT CORRUPTION

CASE STUDY - PUBLIC PROCUREMENT IN ALBANIA

8 October, 2019

Hilton Garden Inn, Nene Tereza Room, Tirana

CSR Communication Center is pleased to invite you to participate at the Project Launch Event of the **“Social Audit to Fight Corruption in Albania (Case Study - Public Procurement in Albania)”**. This project is supported by the Small Grants Programme: “Support to Local Civil Society Organizations in Pursuing EU and Regional Anti-Corruption Agenda, Reference 2018/394-123-GA1”, funded by EU.

This project will introduce a new monitoring mechanism, such as Social Audit in Public Procurement in Albania. There are no other Social Audit Reports conducted in Public Procurement in Albania. Therefore, this first experience will help other CSO's and watch dogs to continue with social audits in other public sectors, or with follow up audits in the same sector - public procurement. The approach for the latest audits could be vertical auditing and in depth analysis of corruption in public procurement, focusing more on specific sectors, such as Energy Public Procurement highlighted from Shadow Power (SELDI) as one of the sectors in Albania lacking transparency.
